Reethaus

(OPENING
SEPTEMBER
2023)

Inspired by ancient temples, caves and other natural voids, the *Reethaus*, the first opening at the *Flussbad* campus, is Berlin's newest performance space featuring an in-built 360-degree spatial sound system.

With its hand-thatched reed roof and monastic cement interiors, our semi-subterranean performance space was designed by Austrian architect *Monika Gogl* in homage to ancient temples, caves and other natural voids. Modular seating, designed in collaboration with Antwerp-based designer *Cédric Etienne*, employs a mix of cork blocks, wooden seats and woven tatami mats to enable a rich variety of gatherings and experiences.

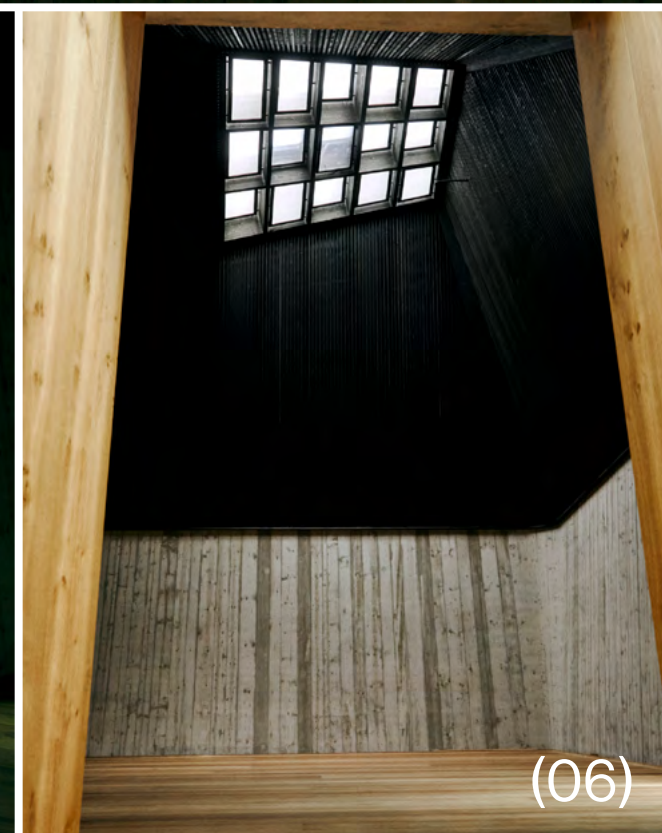

(PERFORMANCE SPACE)

The *Reethaus* combines extraordinary design with state-of-the-art technology to create a natural environment for a range of nuanced, immersive experiences. Our in-house creative team ensures a seamless process from pre-production and set design, to live recording and communications.

Our spatial sound system by *Wax* is operated in partnership with *MONOM*, an innovative spatial sound studio based at Funkhaus, just downriver from *Flussbad*. Visitors to *Flussbad* have the opportunity to experience immersive 360°, 16-channel sound for performances, installations and a range of other auditory experiences.

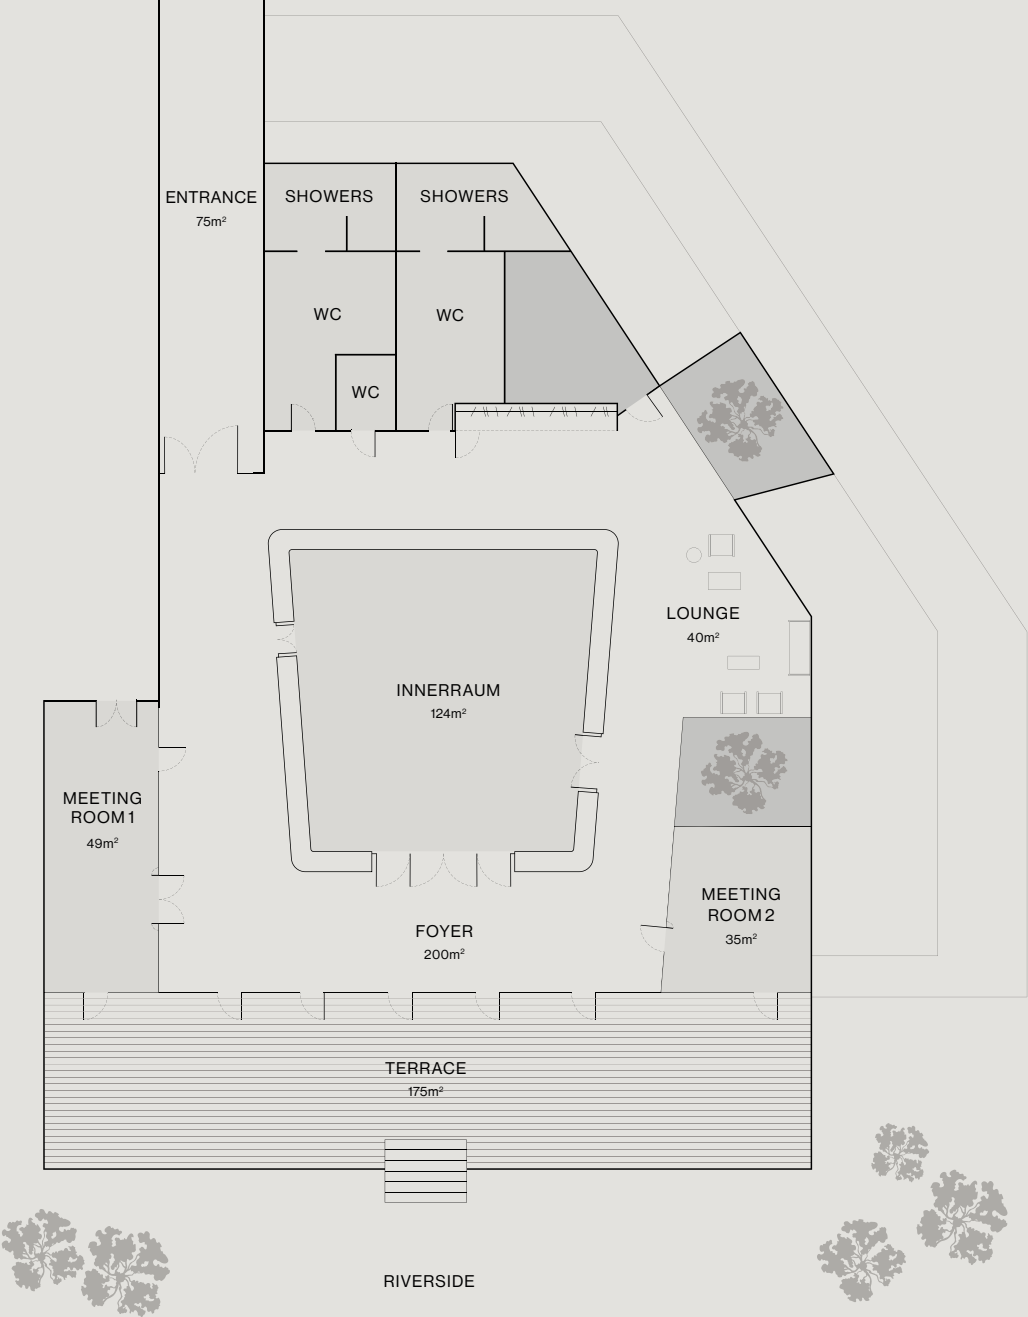

Reethaus
